

Peace Corps Peru is looking for a technical trainer for its **Water and Sanitation** program, to work in pre-service training for new Volunteers. The contract period will be August 19 through November 27, 2013, which includes preparation before the arrival of the new Volunteers. The training will be based in Chaclacayo, outside of Lima.

Candidates must have Peruvian residence.

Resumés and cover letters should be received by May 24, 2013, by e-mail to aluthi@pe.peacecorps.gov .

Basic Functions

The Water and Sanitation Trainer guides and supervises Trainees in the learning and practice of technical and social/cultural competencies for their sector. Working with the Associate Director responsible for the program and the Senior Trainer, the Water and Sanitation Trainer plans and delivers sessions and activities, develops training materials and contacts, and coordinates the integration of Water and Sanitation training with language facilitators and other training staff.

Qualifications

- University degree in Social Studies with experience in water & sanitation issues, or Engineer with experience in community work.
- Knowledge of community development and community diagnostic process
- Knowledge of hygiene initiatives promotion.
- Rural water service management, and solid waste management
- Two years of work experience in the field, preferably with NGOs or development agencies working in rural communities in Peru or Latin America
- Experience working with local government institutions, health sector, and local water committees
- Experience working as a trainer using non-formal education methods for adult education.
- Excellent communication skills in English and Spanish. Bi-cultural working experience preferred.
- Ability to motivate and work with youth.
